INTRODUCTION

Rooted in the vibrant industrial landscape of Semarang, Indonesia, our factory is powered by a dynamic team of expert engineers dedicated to upholding the highest standards of quality.

Our expertise spans the full spectrum of the hospitality industry, crafting bespoke furniture solutions for restaurants, hotels, cafes, and private residences.

OUR CAPABILITIES

World-Class Production Facility

300+ skilled workers and management team driving excellence.

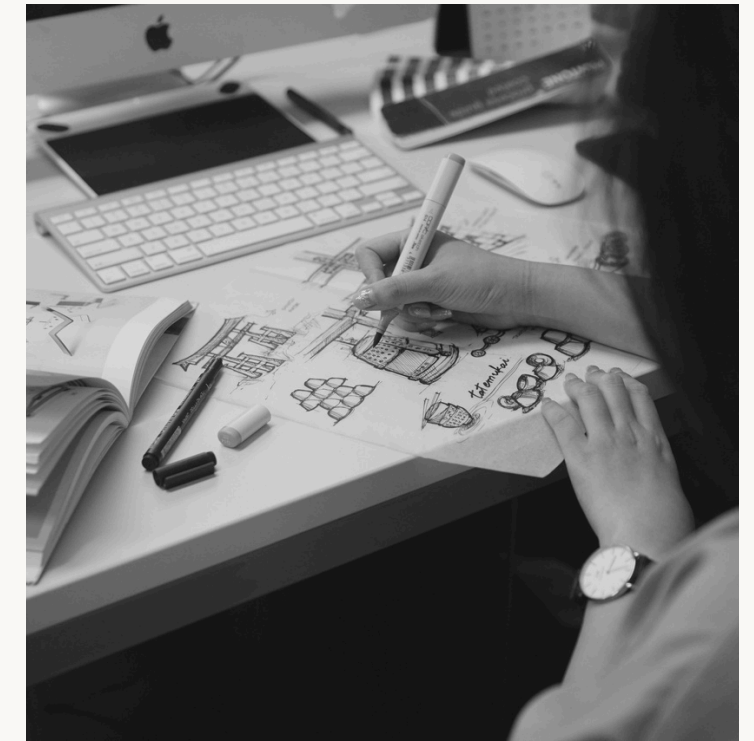

Cutting-Edge Woodworking Technology

Complete set of woodworking machinery, including 3-axis & 5-axis CNC machines, and a robotic spraying machine.

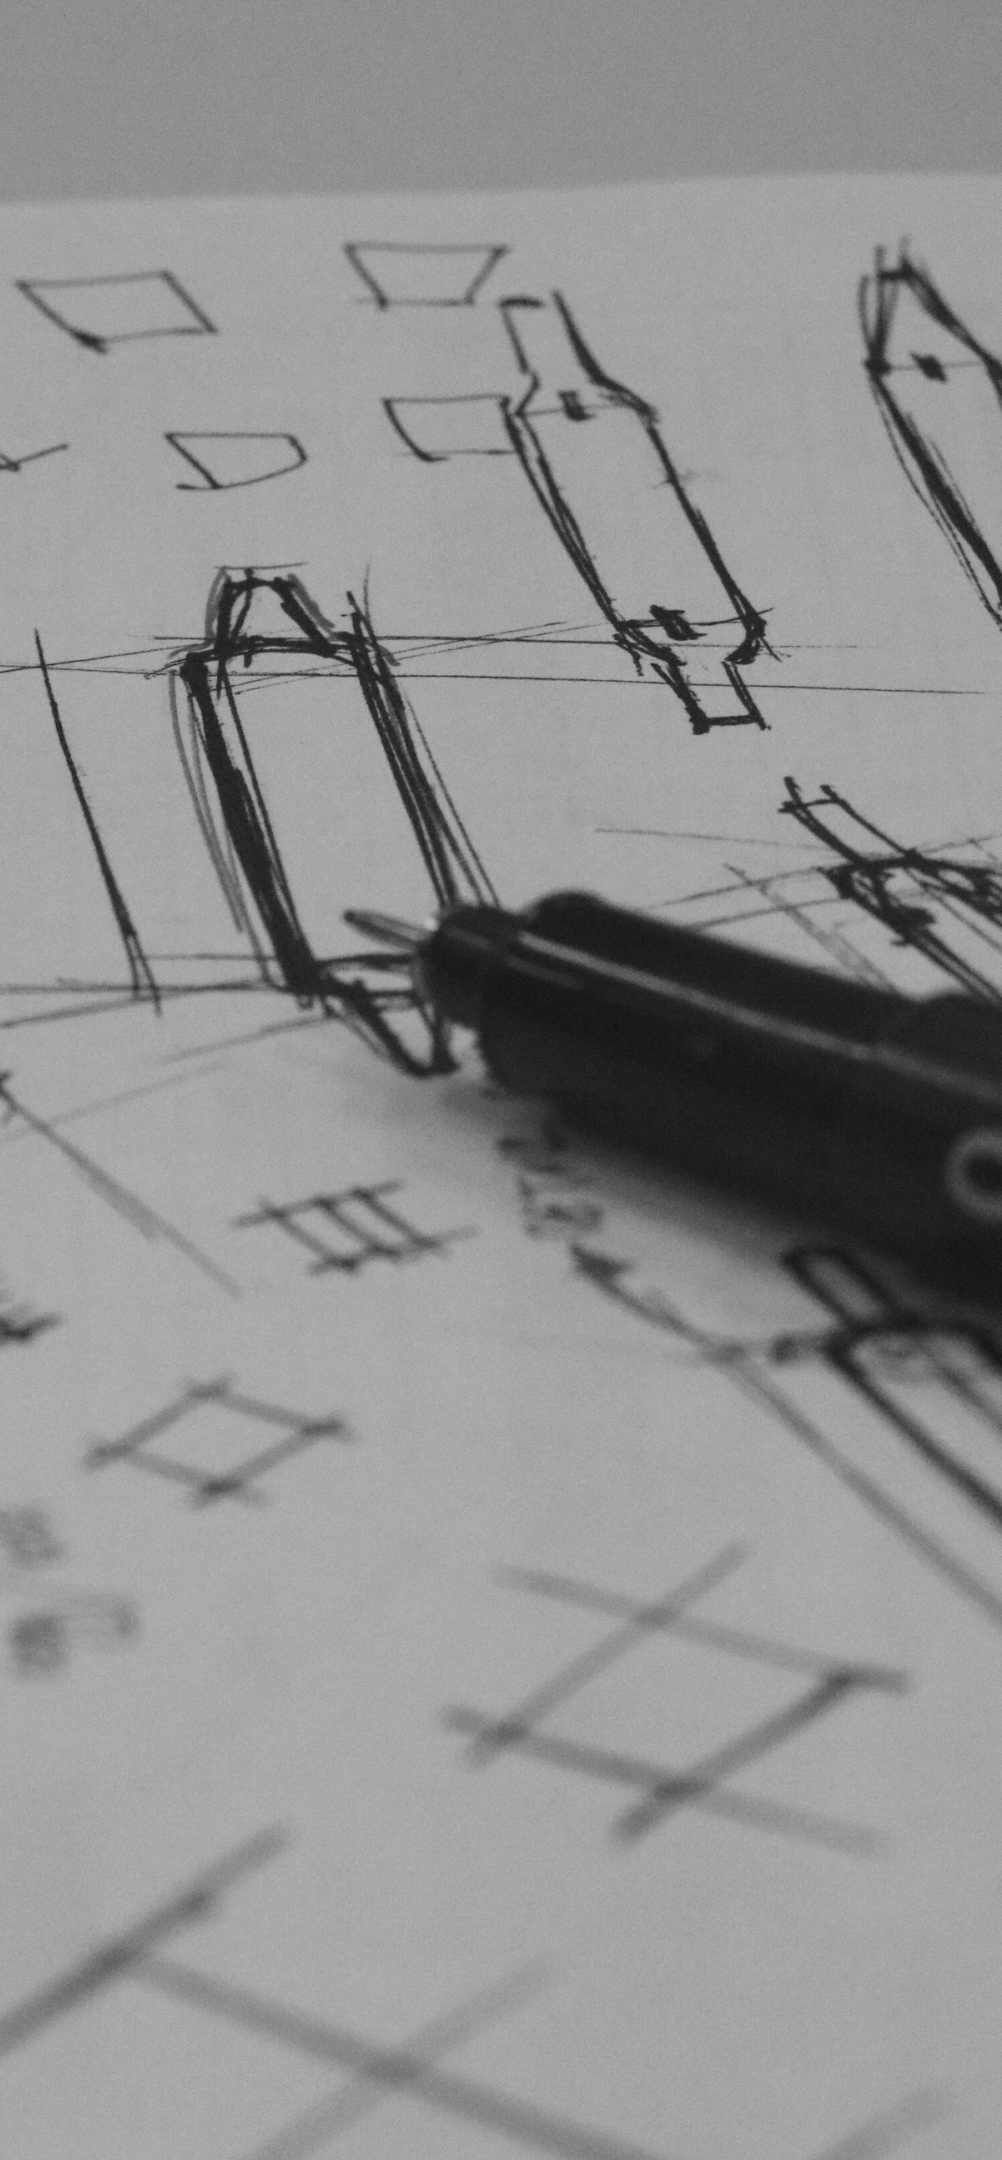

Lean Manufacturing Excellence

Certified system ensuring efficiency and top-quality output.

Design-Led Approach

Led by a team with a strong background in interior design, every product is developed with spatial intelligence and refined material sensibility.

Design & Product Development

A well-made piece begins with thoughtful design.

At Creative Industries Abadi (CIA), our approach to furniture is shaped by our CEO's background in architecture. This foundation influences how we think about proportion, function, material, and how each piece lives within a space — not just as an object, but as part of a larger environment.

Every product is developed with intention, balancing aesthetics, usability, durability, and production feasibility from the very beginning.

From concept development and precise dimensions to material selection and mock-ups, our team ensures that each design is ready for consistent manufacturing and long-term use.

Based in Semarang, Indonesia, our factory is supported by over 300 skilled workers and management.

With a complete set of woodworking machinery, including 3-axis and 5-axis CNC, and a Robotic Spraying machine, PT CIA delivers custom and standard production efficiently, while maintaining quality, precision, and consistency at scale

Manufacturing & Production Capability

Quality Control & Shipping

Quality is monitored at every stage, from sample approval to final inspection.

Our QC team ensures construction, finishing, and consistency meet agreed specifications before products are carefully packed and prepared for export delivery.

Production SOP for our Design

01 Choose your Design

Choose your preferred design from our curated product range.

MOQ =

- Mixed items 1 container, 40 Hq

02 Quotation

Once the quantity is finalized, we will issue a detailed quotation.

The client signs the Quotation and Finishing Sheet.

A 30% down payment is made upon confirmation to proceed with production.

03 Production

Production lead time is approximately 10-12 weeks. Upon completion, we will provide production photos for quality control. Clients are also welcome to visit the factory for an on-site quality inspection.

04 Delivery

Once QC by Client is done, Items are packed according to export standards, and the remaining 70% balance must be settled before dispatch.
